DETAILED ACTION

Claim Objections

1. Claim 8 is objected to because of the following informalities: At line 8, it appears that "so a to" should be changed to - **so as to** -. Appropriate correction is required.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 8-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over Takahara et al. (5381158).

Takahara discloses a head mounted image display device comprising: a display; an input device with a sensor for inputting signals; means for generating and displaying a virtual keyboard on the display (col. 6, lines 41-42; col. 13, lines 53-60); a means configured so as to identify a key of the virtual keyboard.

Takahara does not disclose the display is an LCD in their invention. However, using an LCD in head mounted display device is well known in the art. This is also taught in the "Background of the Invention" of Takahara's invention (col. 1, lines 66-68).

It would have been obvious to one of ordinary skill in the art to use the known LCD in Takahara's invention since Takahara does not teach use any specific display in their invention.

Inventorship

4. In view of the papers filed 11/7/2002, the inventorship in this nonprovisional application has been changed by the deletion of Masaaki Yasukawa, Noriko Watanabe, Kunio Yoneno, Syoichi Uchiyama, Hiroshi Kamakura, Joji Karasawa.

The application will be forwarded to the Office of Initial Patent Examination (OIPE) for issuance of a corrected filing receipt, and correction of the file jacket and PTO PALM data to reflect the inventorship as corrected.

Response to Arguments

5. Applicant's arguments filed 11/18/2002 have been fully considered but they are not persuasive.

Applicant argues that Takahara does not teach displaying a virtual keyboard. The examiner disagrees with applicant's argument because Takahara clearly teaches displaying the virtual keyboard (see col. 13, lines 53-60).

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of
